- Node.js
- MongoDB
- Express.js
- Redux
- Rest API Javascript
- Git
- CSS

Certification:

MERN Stack Development - Illinois Tech institute

Education:

Master of Science - Computer Science

M G University

2018 - 2020

Project:

E-Commerce Website (MERN Stack Project)

Built a full-featured e-commerce website using the MERN stack with user authentication, cart/order management, and an admin panel, secured via RESTful APIs and JWT.

Professional Experience:

Project Officer (Information Technology)

September 2025 Onwards| Company : Cochin Shipyard Limited

- Supported daily IT operations and assisted in maintaining system functionality.
- Performed basic troubleshooting of software, system, and network-related issues.
- Assisted in installation and configuration of applications and systems.
- Collaborated with teams to resolve technical issues and ensure smooth workflows.
- Contributed to software-related tasks, including working with C++ and application support.

Junior Full Stack Developer

June 2023 - June 2025| Company : GreenFi

- Worked as a Full Stack Developer, primarily using Next.js and TypeScript for frontend development.
- Utilized libraries like ShadCN and TanStack (React Table and React Query) to build responsive, feature-rich user interfaces.
- Applied MERN stack knowledge in building scalable web applications.
- Contributed to backend development by debugging and resolving issues in SQL-based systems.
- Gained practical experience with both NoSQL (MongoDB) and relational databases (SQL).

External Faculty

2021 - 2023
