Summary

Full Stack Developer with 2 years of experience building responsive web applications using the MERN stack, Next.js, and TypeScript. Currently working as a Project Officer (IT) at Cochin Shipyard Limited, with hands-on experience in IT operations, system support, and troubleshooting in a high-demand environment. Strong foundation in databases (SQL & MongoDB) and a growing focus on networking and system infrastructure. Eager to contribute to roles that combine development expertise with reliable IT systems support.

Skills:

- **Software Installation & Configuration**
- **System & Network Troubleshooting**
- **DNS**
- **DHCP**
- **Windows/Linux**
- **TCP/IP**
- **Client-Server**
- **Team Collaboration**
- **Problem-Solving**
- **Effective Communication**
- **Attention to Detail**
- **Adaptability**
- **Javascript**
- **TypeScript**
- **Next.js**
- **React.js**
- **Tailwind css**
- **Bootstrap**
- **Node.js**
- **MongoDB**
- **Express.js**
- **Redux**
- **Rest API Javascript**
- **Git**
- **CSS**

Certification:

MERN Stack Development - Illinois Tech institute

Education:

Master of Science - Computer Science

M G University

2018 - 2020

Project:

E-Commerce Website (MERN Stack Project)

Built a full-featured e-commerce website using the MERN stack with user authentication, cart/order management, and an admin panel, secured via RESTful APIs and JWT.

Professional Experience:

Project Officer (Information Technology)

September 2026 Onwards| Company : Cochin Shipyard Limited

- Supported daily IT operations and assisted in maintaining system functionality.
- Performed basic troubleshooting of software, system, and network-related issues.
- Assisted in installation and configuration of applications and systems.
- Collaborated with teams to resolve technical issues and ensure smooth workflows.
- Contributed to software-related tasks, including working with C++ and application support.

Junior Full Stack Developer

June 2023 - June 2025| Company : GreenFi

- Worked as a Full Stack Developer, primarily using Next.js and TypeScript for frontend development.
- Utilized libraries like ShadCN and TanStack (React Table and React Query) to build responsive, feature-rich user interfaces.
- Applied MERN stack knowledge in building scalable web applications.
- Contributed to backend development by debugging and resolving issues in SQL-based systems.
- Gained practical experience with both NoSQL (MongoDB) and relational databases (SQL).

External Faculty

2021 - 2023
